data="observations" readonly="false" />

  <button name="soumettre" label="Soumettre"
transition="soumettre"/>

</workflow-form>
```

Here is the graphic representation :

**Démarrage du processus**

Date   

Direction/Service  

Ordonnateur  

Nom du document  

Justificatif de la sortie  

Description du document

Duree probable  

Observations

 Fermer  Démarrer

Here is the information from my database:

Database name : [okmdb](#)

Database user : workflow\_user

Password : 1234

Table name : [WORKFLOW\\_ARCHIVE](#)

The different fields of the table [WORKFLOW\\_ARCHIVE](#) :

#	Nom	Type	Interclassement
1	Date	date	
2	Direction_Service	varchar(50)	utf8_bin
3	Ordonnateur	varchar(50)	utf8_bin
4	Nom_document	varchar(50)	utf8_bin
5	Justificatif_sortie	varchar(50)	utf8_bin
6	Description_document	text	utf8_bin
7	Duree_probable	varchar(20)	utf8_bin
8	Observations	text	utf8_bin
